Saakshi Pawar

Student of MSc in Cloud Computing seeking SRE Intern Opportunity

Phibsborough, Co Dublin 07 | +353 0892761907 | saakship59@gmail.com | www.linkedin.com/in/saakshi-pawar-758a06211

Professional Summary

- Cloud administrator with 4.5 years of experience in virtualisation and infrastructure management.
- Joined Capgemini as an analyst and was promoted to senior analyst after 18 months, recognising my technical contributions and performance. Later joined Kyndryl as an associate consultant.
- Hands-on experience in enterprise server and virtualisation administration, including Windows, Linux, VMware, and VxRail environments.
- Led and managed VxRail, ESXi, and vCenter upgrade activities, including planning, implementation, troubleshooting, and post-upgrade validation.
- Worked as an N3+ SPOC, communicating with international clients, providing technical updates, coordinating with support teams, and helping resolve complex infrastructure issues.
- Programming & Databases: Python, C, C++, OOP, SQL | Systems: Windows, Linux | Cloud & Virtualization: AWS, Azure, VMware vSphere, ESXi, vCenter, VxRail.
- Currently on a STAMP 2 visa and eligible to apply for a 1G visa in November 2027 and available for full-time employment from January 2028.

Technical Skills

- **Virtualization / HCI**: VMware vSphere, ESXi, vCenter Server, vXRail
- **Operating Systems**: Windows: 2008 / 2012 / 2016 / 2019 / 2022, Linux: RHEL 7/8/9
- **Hardware**: Cisco, Lenovo, HP, Dell
- **Software Engineering**: C, C++, OOP, Python
- **DevOps & Tools**: Azure, AWS EC2, CI/CD, Software Development Cycle, Program Analysis
- **Certification**: ITIL (Coursera), Azure AZ-900 Fundamentals Certification (Microsoft), vSphere 8 (Pluralsight)

Education

- **September 2026 - September 2027 | National College of Ireland | MSc in Cloud Computing**
  Modules: Cloud Architectures, Cloud Computing Programming, AI in Cloud, GreenOps for Sustainability.

- **August 2018 - May 2021 | AISSMS COE Pune | BE in Electronics and Telecommunication (1.1 Equivalent)**
  Relevant Module: OOP, C, C++, AI, Machine Learning.

Professional Experience

July 2025 - May 2026 | Kyndryl Solutions | Associate Consultant

- Manage VMware vSphere infrastructure with 5,000+ VMs across 600+ ESXi hosts, supporting business-critical workloads.
- Perform vCenter Server and vROps patching and maintenance, along with regular ESXi patching and upgrades.
- Troubleshoot ESXi OS and hardware issues and resolve Linux and Windows guest OS issues to reduce downtime.
- Provision and manage VMs using templates, OVA, and ISO installations, along with CPU/memory changes, disk expansion, and RDM management.
- Apply security hardening on vCenter and ESXi hosts to meet security and audit requirements.
- Provide technical support to L1 engineers and act as a primary client contact, providing updates and coordinating infrastructure activities.

September 2021 - June 2025 | Capgemini Technology Services India Limited | Senior Analyst

- Managed and maintained a large VMware vSphere environment of a bank with 50,000+ virtual machines across 2000+ ESXi hosts.
- Managed Dell VxRail clusters, including upgrades to VxRail 7.0.451 manually and 8.0.213 using VxRail Release Assistant (VRA).
- Performed vCenter upgrades from 7.x to 8.x, including 8.0 U2D patching, and handled ESXi patching, upgrades, and troubleshooting.
- Managed daily vCenter operations, including snapshots, vMotion, Storage vMotion, HA, DRS, DRS rules, VM reconfiguration, and datastore management.
- Managed Windows Server environments from 2008 to 2022, including server deployment, performance monitoring, troubleshooting, and user and group management.
- Worked with Windows clustering, Active Directory, DHCP, and DNS, and worked with hardware and software vendors to resolve technical issues.
- Worked as an N3+ SPOC, communicating with international clients, providing technical updates, coordinating with support teams, and helping resolve complex infrastructure issues.
- Worked with hardware and software vendors to troubleshoot complex issues and coordinate solutions based on client requirements.

Certifications

- Azure AZ-900 Fundamentals Certification
- ITIL :Coursera
- vSphere 8: Implementation and troubleshooting :Pluralsight
- Windows Server 2016, 2022: Implement and manage :Pluralsight

Projects

- **Automated Patients' Room Using Neural Networks Based on Speech Recognition—**Built a prototype of a voice-controlled assistive system to help patients with limited mobility perform basic tasks independently. The system allowed patients to call nurses or attendants using voice commands without needing physical assistance and provided voice-based control of devices such as lights, fans, and other electrical appliances. The project aimed to reduce the need for continuous assistance while improving patient comfort and independence.

Interests and Achievements

- Member of the Badminton Club and Crochet Club at National College of Ireland (NCI).
- Volunteered at a technical event in an engineering college.
- Awarded Employee of the Month twice at Capgemini.
- Won prizes in dance and sketching competitions.
- Design invitation cards and banners.
